

SERIES III.
Administrations,
 1556—1558.

The following is a list of Administrations, &c., dating prior to Elizabeth's reign, which have been discovered in the various mixed bundles of 16th and 17th cent. Bonds. The list is tolerably complete, although it is not improbable that a few others exist for the period it covers. It would be difficult to give a complete list for this period owing to the confused state the early Bonds are in; Administrations, Portion and Legacy Bonds, Inventories, and even a few copies of Wills being mixed for irregular dates. These records need rearranging and indexing to the 18th century.
