

MSc Courses in the Faculty of Science

Due to the friendliness of staff and the high level of teaching, I knew that the University of Leicester was the ideal place for me to do my MSc.

Chris Smerdon,
MSc Financial Mathematics and
Computation 2005-06

A very enjoyable course and a great stepping stone to a PhD.

William Wise, MSc in Green
Chemistry 2005-06

Chemistry

Chemical Research

“

Staying at Leicester meant working with a great maths department, getting to sample more of student life and participating in a course which will help me on the way to becoming a quant in The City.

Steve Upton, Financial Math 2005-06

”
