

Parkerian collation: From Quire 27 to the end of the book

Quire 27

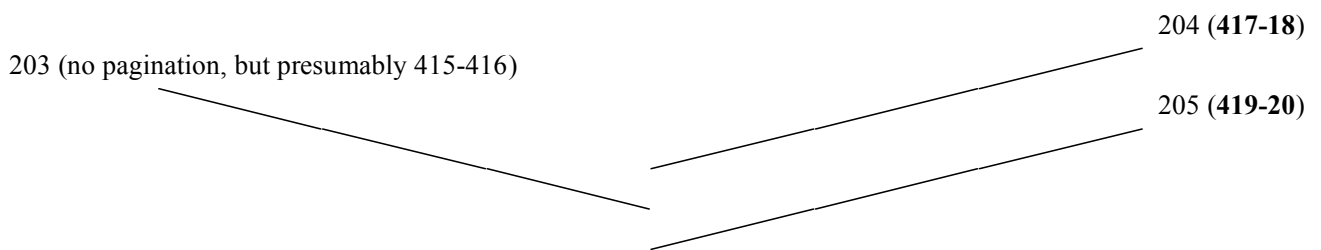

Quire 28 (?)

*Folio numbers are the most recent, whereas the **pagination** was presumably carried out soon after the book was bound for Parker. 6 fols, 12 pages, pp. 403-414, are missing here.*

Quire 29 (?)

Six pages in this quire all have red lines associated Parker, and fols 203v-204r have a text in Latin.
